

**HOLD THE DATE !!!!!**  
**FREE - Technology Day For Parents**  
**Coming**  
**Saturday, October 15<sup>th</sup>**

As part of our technology program for children, we feel that it is important to educate parents on the benefits and dangers of technology. The more teachers and parents learn about the technology our children are using, the better we will understand how to use it to advance our children's educational opportunities while keeping them safe. As promised, we will be educating parents this year, along with the teachers and students. We have a very impressive set of expert speakers coming to NDA and several workshops to help our parents and teachers.

The Workshops and speakers we are planning so far include...

**AM SESSIONS – Before Lunch**

**Internet Safety**      *Speaker Tracey Webb*

**Why Technology and iPads – How Inquiry Based Learning and Integrated Technology Instruction Enhances Learning in the Classroom**

*Speaker - Dr Molebash*

**PM SESSIONS – After Lunch**

**Facebook – How Does it Work and What Features Does it Offer Parents?**

*Presenter – Mrs. Hobbs*

**iPad Training – How to use the iPad and how to set parental controls.**

*Presenter - Mr. Navarro*

\*\*\* This event is for adults (Parents & Teachers) only. Tracy Webb and Mr. Navarro will be conducting separate training for students in the classrooms that are focused on grade level appropriate material.

\*\*\* If we have too many parents interested, we will prioritize the 5<sup>th</sup> thru 8<sup>th</sup> grade families first because of the access their children will have to technology this year. But we will make every effort to include as many interested parents as possible.

\*\*\* Because of the cost of the two main speakers, we will not be able to run this event if there is a poor response to this interest survey. So please return this form by Friday.

\*\*\* More workshops can be added if there is a large response. Please give us ideas of what you might be interested in for this day or in the future as well.

**Speaker Tracy Webb**

Senior Trial Attorney - Los Angeles City Attorney's Office  
Cyber Crime and Child Abuse Prevention Division  
Federal Internet Crimes against Children Task Force (ICAC)

Tracy Webb is a Senior Trial Attorney in charge of the Cyber Crime and Child Abuse Prevention Division of the Los Angeles City Attorney's Office. She is a career prosecutor who has spent a large part of her career prosecuting child abuse cases including physical, sexual, exploitation and technologically facilitated cyber crimes against children.

Tracy is currently an active member of the Federal Internet Crimes against Children (ICAC) Task Force and co-chair of the Los Angeles County Cyber Crime Task Force. She is a frequent speaker locally and nationally in the area of cyber crime and child abuse and is also an Emmy-award winning producer of a documentary film on gang violence. Tracy has produced numerous films and Public Service Announcements on child abuse and cyber crime and recently completed a documentary short on the state of child welfare in Los Angeles County.

Prior to working for the City of Los Angeles, Tracy was the Chief Prosecutor for the City of Pasadena for eight years. In this capacity, Tracy was responsible for supervising a staff of attorneys and support staff who handled the criminal offenses within the city limits of Pasadena as well as running a gang and code enforcement task force and handling a wide variety of criminal prosecutions including child abuse and gang violence cases.

For the past 27 years, Tracy has dedicated her career to prosecuting criminals, supporting children and families and participating in community efforts to further the support and safety of children, youth and families.

**Speaker Philip Molebash**

**Assistant Professor and Director of Technology at  
Loyola Marymount University**

Philip Molebash is currently Assistant Professor and Director of Instructional Technology for the School of Education at Loyola Marymount University. He recently completed a five-year stint at Loyola High School as Director of Technology, and prior to that served as Assistant Professor of Educational Technology at San Diego State University for five years. In 2001, he developed Web Inquiry Projects, a strategy for using web-based primary source materials to promote inquiry teaching and learning. Philip has authored nearly 50 articles related to technology and education, and has presented to educators across the country and overseas.

**Technology Workshop For Parents- Registration Form**  
**DUE: FRIDAY, SEPT. 9<sup>TH</sup>**

Family Name \_\_\_\_\_ Gr. Levels \_\_\_\_\_

**Morning Session (Before Lunch)**

\_\_\_\_\_ I/We would attend the Morning session \_\_\_\_\_ Number Attending

Name of each person attending

\_\_\_\_\_  
\_\_\_\_\_
